

**METHODS FOR COLLECTING FEES FOR HEALTHCARE
CONSULTATION GROUP**

Abstract of the Disclosure

Methods are provided for collecting fees for managing and optimizing the profitability of a plurality of physicians in a healthcare practice participating in an insurance network. The methods include establishing a relationship between a healthcare consultation group and the healthcare practice participating in the insurance network to increase the physician's profitability by reducing a risk of not receiving a predetermined reimbursement amount for ancillary medical costs from the insurance network. The methods also include distributing predetermined percentages of savings attributed to the physicians' modified ancillary medical cost management behavior.
